

pile hoist

MADE IN THE USA.

The **PileHoist** is a yo-yo drum winch that comes in various configurations of lift lines, speeds and loads. Taking into account the installation process, we pre-wire and test our winches to insure proper operation and minimize field time. Regardless of the device being fixed or variable speed, the drive cabinet comes pre-installed.

The **PileHoist** gives the user a clean, tight fitting unit to perform multiple tasks. It allows up to a total of 10 lifting cables and loads up to 1,500 pounds for utmost flexibility.

Footlocker – 34th Street, NYC:
30' Salutation Banner motorized
with an iWeiss PileHoist

PileHoist is a great option for banners, lighting fixtures, speaker clusters, and more...

PILE HOIST
