

CHANNEL CURTAIN TRACK Hanging Splice

The iWeiss Channel Track Hanging Splice is a pair of formed zinc plated steel enclosures. This functions both as a splice to join two tracks together creating a longer track and as a method of hanging track at splice point. With assembly comes hardware for clamping and attachment to track.

TECHNICAL DATA

Part #	IWC07
Materials	Housing: - Formed 12 gauge zinc plated black steel
	Bolts: - 3/8" for clamp - 1/4" set screw
Dimensions	12"L x 5 1/2"h
Weight	6 lbs
