

I-BEAM CURTAIN TRACK

Black Single Carrier

The Align standard I-beam Track Carrier utilizes a nylon wheel and shielded ball bearings. It is designed to take a heavier load than standard carriers. This carrier is intended for use in a straight or curved track with 3/16" or 1/4" rope for bi-part or one way draw, and is also appropriate for walk/draw operation. Plastic glide strips in housing reduce noise and friction.

TECHNICAL DATA

Part #	IWI28
Materials	Wheel: - Shielded ball bearing - Nylon Wheel - Rivet attachment Body: - Zinced Black Formed Steel - Swivel hook and trim chain
Dimensions	1 1/4" w x 5 1/8" h
Weight	3.2 ounces
Load Rating	8lbs on 12" spacing
Note	Stacking space calculated based on carrier width of 2"
