

IWEISS

## PIPE GRID COMPONENTS

# Wall Stabilizer

The iWeiss Innersleeve is 1-9/16" DOM tube mill finish steel welded to 1/4" Plate steel meant for insertion into Schedule 40 1-1/2" pipe. It is used for lateral stabilization for pipe grids. Mounting hardware for attachment to structure is not included. Stabilizer can be drilled for a bolted connection, or provided as shown as a solid tube.

### TECHNICAL DATA

<b>Part #</b>	P311
<b>Materials</b>	1 9/16" D.O.M. Tube, 1/4" plate
<b>Dimensions</b>	6"h x 9 1/4" L
<b>Weight</b>	2.5 lb
