

IWEISS

PIPE GRID COMPONENTS Wall Stabilizer

The IWEISS Wall Stabilizer is 1-9/16" DOM tube mill finish steel welded to 1/4" Plate steel meant for insertion into Schedule 40 1-1/2" pipe. It is used for lateral stabilization for pipe grids. Mounting hardware for attachment to structure is not included. Stabilizer can be drilled for a bolted connection, or provided as shown as a solid tube.

TECHNICAL DATA

Part #	P311
Materials	1 9/16" D.O.M. Tube, 1/4" plate
Dimensions	6"h x 9 1/4"l
Weight	2.5 lb
