CHANNEL CURTAIN TRACK Ceiling Splice

Align Stage
Rigging
Equipment
by IWEISS

The IWEISS Channel Track Ceiling Splice is a pair of formed steel enclosures. This functions both as a splice to join two tracks together creating a longer track. With assembly comes hardware for clamping and attachment to track.

TECHNICAL DATA

Part #	IWC27
Materials	Housing: - Formed 12 gauge steel Bolts: - 1/4" set screw
Dimensions	12"l x 5 1/2"h
Weight	5.9 lbs
