

IWEISS

PIPE GRID COMPONENTS Inner Sleeve

The IWEISS Inner Sleeve is round mechanical tubing that is used to permanently connect two pieces of Schedule 40 1-1/2" pipe together. It can be drilled out as shown for a bolted connection, or provided as a solid tube for welded connections. Inner Sleeve is 1-9/16" DOM tube mill finish steel.

TECHNICAL DATA

Part #	P202
Materials	1 9/16" D.O.M. Tube
Dimensions	1 9/16" h x 1'-6" l
Weight	3.5 lbs
Hardware Included	(4) 3/8"-16 x 2 1/4" Grade 5 Hex Bolts (4) 3/8"-16 Thin Nylock Nuts
