## CHANNEL CURTAIN TRACK Hanging Splice

**Align** Stage  
Rigging  
Equipment  
by IWEISS

The IWEISS Channel Track Hanging Splice is a pair of formed zinc steel enclosures. This functions both as a splice to join two tracks together creating a longer track and as a method of hanging track at splice point. With assembly comes hardware for clamping and attachment to track.

### TECHNICAL DATA

<b>Part #</b>	IWC07
<b>Materials</b>	Housing: - Formed 12 gauge zinc black steel
	Bolts: - 3/8" for clamp - 1/4" set screw
<b>Dimensions</b>	12"L x 5 1/2"h
<b>Weight</b>	4.85 lbs
