

IWEISS

RIGGING EQUIPMENT

Light Duty Mule Block

The IWEISS Light Duty Mule Block is used for diverting cable in various directions. The housing can be an anchored structure or U-bolted to pipe. The steel formed housing includes a nylon sleeve bearing sheave. The single line sheave is designed to support 300 lbs up to 3/16" cable. Multiple-line sheaves are also available.

TECHNICAL DATA

Part #	V310
Materials	Formed Steel, Nylon Sheave
Dimensions	2-1/4"x4"x1"
Weight	1.2 LBS
