

IWEISS

LOW PROFILE CURTAIN TRACK Track

The IWEISS Low Profile track is an aluminum extrusions design for light weight curtains allowing for carriers and operating cord to ride along a single side and inside the extrusion. This creates ease of curtain overlaps without the need for two separate tracks.

TECHNICAL DATA

Part #	IWLP-20B
Materials	- 6061 aluminum extrusion - Riveted to steel housing - Black Zinc finish
Dimensions	1.6" x 1.9" up to 20ft
Weight	0.3lbs/ft
