by IWEISS

The IWEISS Clincher Winch is a single-drive cable winch used for the operation and release of a fire safety curtain system. This unit has a helically grooved steel drum for 5/16" aircraft cable with a travel capacity of 60ft. The Clincher Winch has all moving components and an adjustable hydraulic governor enclosed inside a small formed steel housing.

TECHNICAL DATA

Part #	WCW	Specification	- Lift Line: Single 5/16" 7x19 Cable
Materials	- 3-Phase Gearmotor - Helically grooved steel drum - Integrated Hydraulic descent pump - 3/16 Formed steel housing		- 4-Cam rotary limit switch - 60ft of travel capacity - Wire guide tie-off points - Rating: 1,200lbs - 3-Phase voltage - Self-Weight: 375lbs - Wall or Floor mounting
Dimensions	31.5" x 15" x 20"		
Weight	375lbs
